Growlers To Go...

Our glass biersiphons (or "growlers" as we call them) come from Dortmund, Germany. The brown glass growlers hold 2 liters of beer (almost a six pack worth), and are sealed with a porcelain head.

We are proud of our beer & never use preservatives. Our beer contains only the freshest natural ingredients - for that reason our beer is best when consumed within a few days of purchase.

Our freshly brewed beer is easy to take home in our two-liter glass growlers for \$18. Purchase the growler bottle & have it filled & refilled for only \$9.25-11.25*.

Ask your server or bartender for details.

How Beer is Made...

Malted barley from our silo outside is crushed in a mill and mixed with hot, purified water in the mash tun. The starch in the grain is converted naturally to sugars, and the resulting wort is strained off and transferred to the brew kettle. The wort is boiled and hops are added to impart a balanced bitterness with delicate flavors and aromas. The wort is cooled in the heat exchanger by chilled water and transferred to the fermenters where yeast is added. After 3 to 7 days primary fermentation, the tank is sealed & the temperature lowered for the aging to occur for 2 - 10 weeks. Some beers have more hops added (dry hopping) to give a more intense hop character. The beer is then filtered into the serving tanks from where it is drawn directly to the bar or filled into our 2 liter growlers..
